

JAMI LAVIN

Senior QA Analyst | Compliance-Focused Quality Assurance | Manual Testing & Audit Standards (ISO 9001, TL 9000) | ISTQB Certified

jamilavin@gmail.com • 309.558.8389 • Lakeland, FL • [linkedin.com/in/jami-lavin](https://www.linkedin.com/in/jami-lavin)

PROFESSIONAL SUMMARY

Senior QA Analyst and Test Lead with 11+ years of hands-on manual testing experience across web-based applications, complex workflows, and data-intensive systems. Proven ability to manage multiple client projects simultaneously, lead and mentor QA teams, and serve as sole tester on critical initiatives from requirements through release. Deep expertise in functional, regression, exploratory, and API testing, SQL-based data validation, defect management, and UAT support. ISTQB certified at both Foundation and Test Manager levels, with additional Certified Scrum Master (CSM) credentials. Focused on delivering high-quality software in collaborative, structured environments where QA has a real seat at the table.

CORE COMPETENCIES

Manual Testing (Functional, Regression, Exploratory) • End-to-End Workflow Validation • UAT Preparation & Support
SQL Data Validation • Data Accuracy & Integrity • Business Rule Validation • Edge Case Identification
Azure DevOps • Test Case & Script Development • Defect Tracking & Lifecycle Management • Agile / Scrum
QA Team Leadership & Mentorship • Requirements Analysis • Release Readiness • Test Documentation

PROFESSIONAL EXPERIENCE

Scrum Master | Group O -- Milan, IL Jan 2024 -- Nov 2025

- Facilitated Agile ceremonies including sprint planning, standups, retrospectives, and reviews for cross-functional teams delivering business-critical applications
- Partnered with stakeholders to clarify requirements, track progress, and ensure alignment across business and technical teams throughout the delivery lifecycle
- Identified workflow inefficiencies and drove process improvements that enhanced team communication, delivery consistency, and release readiness
- Communicated risks, issues, and dependencies clearly to leadership and team members, ensuring testing and release timelines remained on track
- Led UAT preparation and execution, guiding stakeholders through testing and consolidating feedback into actionable insights

Test Lead | Senior QA Analyst | Group O -- Milan, IL March 2015 -- Jan 2024

- Led QA across multiple concurrent client projects -- serving as sole tester on critical initiatives and managing a team of 6, providing mentorship on testing practices, documentation standards, and defect reporting
- Executed comprehensive manual testing for web-based applications -- functional, regression, and exploratory -- validating functionality, workflows, and system behavior against defined business requirements
- Performed data validation using SQL across 50+ tables, verifying accuracy, consistency, and integrity of application data throughout testing cycles
- Created and maintained structured test cases and scripts in Azure DevOps, ensuring full traceability to user stories and acceptance criteria

- ❑ Validated end-to-end workflows covering data inputs, processing logic, and outputs -- ensuring business rule alignment and thorough edge case coverage
- ❑ Logged, tracked, and retested defects with clear reproduction steps, impact assessments, and fix verification -- maintaining full defect lifecycle visibility
- ❑ Supported UAT preparation by developing test scenarios, assisting stakeholders during testing, and consolidating feedback for prioritization
- ❑ Investigated user-reported issues by reproducing system behavior and distinguishing between defects, data issues, and configuration gaps
- ❑ Contributed to go/no-go release decisions by identifying risks and validating application stability prior to each deployment
- ❑ Collaborated with developers, product owners, and business stakeholders to clarify requirements, improve test coverage, and reduce rework
- ❑ Performed API testing using Postman to verify system integrations and validate data transfer between connected applications
- ❑ Supported ISO 9001 and TL 9000 quality standards through standardized documentation practices, adherence to established procedures, and participation in internal audit support activities

EDUCATION

Western Illinois University Macomb, IL

Bachelor of Arts, Liberal Arts

CERTIFICATIONS

- ISTQB Certified Test Manager -- 2021
- ISTQB Certified Foundation Tester -- 2017
- Certified Scrum Master (CSM) -- 2025

CORE COMPETENCIES BY AREA

Testing

Manual Testing (Functional, Regression, Exploratory) • End-to-End Workflow Validation • UAT Support • API

Data & SQL

SQL Data Validation • Data Accuracy & Integrity • Business Rule Validation • Edge Case Testing

Tools

Azure DevOps • Test Case & Script Development • Defect Tracking & Lifecycle Management • Postman

Methods

Agile / Scrum • Requirements Analysis • Release Readiness • QA Mentorship & Team Leadership

Docs

Test Plans • Defect Reports • Regression Checklists • User Guidance • Issue Triage
